

# NANO CUBE USA, LLC

## Variation Evidence Package

|              |                        |
|--------------|------------------------|
| Document No. | NC-2026-TGB202-002-VAR |
| Conflict ID  | kzone-002              |
| Project      | Topgolf New Braunfels  |
| Bid No.      | TGB2026                |
| Location     | New Braunfels, TX      |
| Generated    | 2026-05-16 15:59 UTC   |

### 1. Member Change Summary

|                | Designation |
|----------------|-------------|
| Before (Rev 0) | W10X49      |
| After (Rev 1)  | W12X58      |

Estimated cost impact: +\$8,500

### 2. Visual Diff Evidence

No visual diff manifest available. Run ghost\_overlay() first to generate overlay PNG and manifest JSON.

### 3. Specification Flags

| Flag              | Severity | Impact            |
|-------------------|----------|-------------------|
| CERTIFIED_WELDING | RED      | AWS D1.1 required |

### 4. Conflict Classification

Type: K-Zone

K-Zone conflict: connection geometry has changed. Verify bolt pattern and cope dimensions match revised member.

### 5. Required Actions

1. Confirm revised member designation with engineer of record before fabrication.
2. Update Tekla model and issue revised shop drawings.
3. Notify project manager of cost impact and schedule effect.
4. Retain this document in the project file per Nano Cube document control procedure.
